AMERICAN MISSION IN RUSSIA

SAILED SECRETLY MAY 15TH ON A FAST NAVAL SHIP

ALLIES REGAIN LOST TRENCHES

(By Associated Press.)
PARIS, June 4.—The Germans forced their way into French advanced positions near Friedmont.

(By Associated Press.)
LONDON, June 4.—An air raid was made on the Bruges docks and was today.

(By Associated Press.)
LONDON, June 4.—The British captured an advance post near Cherbourg, taken by the Germans Saturday.

(By Associated Press.)
In the Lens and Arras sectors on the French front the British and Germans during Saturday night and Sunday were engaged in fierce fighting in which each side won successes but were not able to hold them in their entirety in the face of violent counter attacks. Striking heavily south of the Souchez river during Saturday night and early Sunday morning the British made good gains in terrain and also took numerous prisoners. Later the Germans stiffened their line and counter attacked with considerable forces, which held the British who were unable to maintain their progress. As a result of the fighting nearly 100 prisoners remained in the hands of Field Marshal Haig's men.

South of Arras the Germans pushed back the British front, taking several positions. The British, however, as was the case with the Germans in the Souchez sector, regained their men and striking hard regained their lost ground in its entirety, except for one post.

Around in the bend in the line running eastward from the region of Solismans into the Champagne, the French and Germans are engaged in vicious fighting with infantry on the Valenciennes and Calonne plateau and with artillery further eastward. Saturday night and Sunday the forces of the German crown prince attacked the plateau positions of the French in waves, the Germans at some places coming on shoulder to shoulder. The French artillerymen and riflemen inflicted terrible losses on the Germans, who were not successful at any point in captured and holding a French position. The Italian offensive in the Austro-Italian theater again has greatly diminished in violence, being carried out mainly by small detachments. An indication of the extent of the Austrian losses in the recently fighting is a statement issued by the Italian war office which shows that between May 14 and May 29 the Austrians lost 45,000 men in killed, wounded or missing.

Again there has been considerable fighting between the entente and German troops on the Macedonian front. Paris reports engagements with alternating results near Lynx, while Sofia records successes for the Bulgars over the French along the right bank of the Vardar and the repulse of the British, who attempted an advance in the Seres region.

The Austrian official commission says that on the Moldavian front, the Romanians unsuccessfully attempted an advance between the Suchitza and Putna valleys.

(By Associated Press.)
STOCKHOLM, June 4.—Delegates of the German majority Socialists arrived today headed by Philipp Scheidemann. Herr Moikenbur, one of the delegates said: "I fear peace will not result from the Stockholm conference, but the whole world wants peace, and we come to see whether there is any chance of se-

NEST OF SPIES UNDER ARREST

NEW YORK, June 4.—The secret service has unearthed the spy system by which it is believed warning was sent to Germany of the sailing of U. S. destroyers.

In holding the three alleged conspirators on bail of \$25,000, United States Commissioner Hitchcock said: "In view of the fact that the news of the departure of the American destroyers reached Berlin four days before they arrived in England and it is my understanding the government considers the present matter part and parcel of that case, I do not consider the bail high."

The men are Bonaparte Pressie and Harry Pressie, connected with a German electrical supply company, Axel E. Melchar, a Harlem saloon-keeper, is charged with conspiring to have a Norwegian crew take the letter.

A fourth man, described as a son of a German army captain, was arrested.

BUFFALO BILL'S BODY INTERRED

REMAINS OF FAMOUS SCOUT DEPOSITED IN A LOFTY SARCOPHAGUS

(By Associated Press.)
DENVER, Colo., June 4.—Last tribute was paid yesterday to the memory of Colonel William F. Cody, (Buffalo Bill), by a vast assemblage when the body of the famous scout and plainsman was laid to rest in a vault blasted from solid rock on top of Lookout Mountain, 20 miles from Denver.

More than 10,000 people went from Denver to Lookout Mountain. For hours before the ceremonies at the grave there was a steady procession of automobiles winding up the mountain side toward the summit.

The ceremonies at the grave were not elaborate, only the Masonic ritual being used, under the direction of the Golden Masonic lodge. A delegation of Knights Templar from North Platte, Nebraska, where Colonel Cody held his membership, acted as an escort.

American Liner Hit Twice By Torpedoes and Escapes

(By Associated Press.)
NEW YORK, June 4.—Two German submarines made a concerted torpedo attack on the American line steamship Kronland on her last outward voyage from this port, firing four torpedoes, two of which hit the liner glancing blows, but did not explode, according to a report brought here today by an American recently in England, who said he was told of the attack by an officer of the ship.

The torpedoes were fired from opposite sides of the vessel. Naval gunners on the Kronland opened fire at the unseen targets, sending explosive shells into the water at the point where it was judged the submarines were when the torpedoes were launched, but so far as known no hits were recorded.

KRONSTADT REDS CALL ON PETROGRAD PEOPLE

(By Associated Press.)
PETROGRAD, June 4.—Sailors from the Kronstadt garrison, which recently declared its independence of the central government, arrived at Petrograd yesterday announcing that warships would come from Kronstadt immediately to land men to make a demonstration. An ice breaker finally arrived off Gutuloff flying the red flag, but none of its crew landed.

The demonstrations were to be for the purpose of bringing about new elections of members of the council of workmen and soldiers delegates, whose present members are centralism or spontaneous combustion. The sailors also demanded that the former Emperor Nicholas be handed over to them. They expressed dissatisfaction with Minister of War Kerensky, and the whole provisional government. On the ice breaker when it arrived were sailors and workmen signing the hymn of the Bolshevik Extremists. The boat steamed up and down opposite the wharf, took on a party of Petrograd workmen and departed. Simultaneously seven large cases of phosphorus on the wharf ignited. A violent explosion followed, causing a disastrous fire. It is believed improbable that the conflagration was caused by any one from the ice breaker. It either was due to incendiaryism or spontaneous combustion.

KRONSTADT MORAL OUTLAW AND AVOWED ENEMY OF FREEDOM

(By Associated Press.)
PETROGRAD, Via London, June 4.—"Kronstadt will be declared morally boycotted, outlawed and cut off from the rest of the empire unless it immediately withdraws its defiance to the provisional government." This statement was made to the Associated Press yesterday by Minister of Justice Perezevoff, who recently conducted negotiations with local extremists in behalf of the Petrograd government and narrowly escaped being lynched by a mob, owing to his insistence on the release of an innocent officer who had been imprisoned.

"Kronstadt exaggerates its strength. We have here sufficient troops and ships to coerce the rebels. We could also easily blockade the island and starve it out, but I and my colleagues are agreed that such measures are not desirable. Instead, the

cabinet will probably, if in the meantime Kronstadt has not surrendered, issue a declaration that the fortress town has turned traitor to the revolution and become an enemy of Russia's new freedom. We are convinced that the universal reprobation of Russia will without harsher measures, bring the extremists to reason.

"Formerly when we had trouble in Kronstadt we temporized because we feared the result of stern measures if the Germans attacked. Later we have taken measures which make a German attack absolutely impossible. Therefore no harm can come to Russia from anything Kronstadt can do."

MIGHTY BRAINS OF AMERICA WILL APPLY KNOWLEDGE TO SAVE RUSSIA FROM GERMANY

(By Associated Press.)
WASHINGTON, D. C., June 4.—Safe arrival at a Russian port of the American commission to Russia headed by Elihu Root, ambassador extraordinary, was announced yesterday in a dispatch to the navy department.

The commission left Washington about May 15, charged with greetings to the new democratic government of Russia, and authorized to pledge unstinted aid from the United States, not only in the prosecution of the war against the common enemy, but in the rehabilitation of the demoralized country. It was preceded by a special mission of railroad experts, whose arrival al-

ready has been announced. After a final conference between President Wilson and Mr. Root, the commissioners traveled overland to the Pacific coast and there boarded a fast naval vessel. Under the voluntary censorship, at the request of the government, nearly all American newspapers refrained from publishing anything about the departure or the points through which they passed along the way. While no German submarines are known to be operating in the Pacific, it was deemed wise to print no details of the trip until the voyagers were safely landed. The arrival of the mission at Petrograd is awaited anxiously because it is confidently be-

lieved here that the assurances it brings from the American government and the people, and the counsel of its members will do much towards steadying and strengthening the hand of the provisional government.

With Mr. Root are John R. Mott, Cyrus H. McCormick, Samuel R. Bertron, James Duncan and Charles Edward Russell, envoys extraordinary; Major Hugh L. Scott, chief of staff of the army, military representative of the president; Rear Admiral James H. Glennon, naval representative of the president, and a large staff.

Charles R. Crane, envoy extraordinary already is in Russia and will join the party at its destination.

IMMEDIATE CALL FROM THE ARMY

ONE MILLION MEN NEEDED RIGHT AWAY TO FILL OUT THE ARMY

(By Associated Press.)
WASHINGTON, D. C., June 4.—Plans of the war department to draft from nine hundred thousand to a million and a half men of the ten million expected to register tomorrow for the new army, were disclosed today by Provost Marshal General Crowder to the senate military affairs committee. He said the exemptions would probably reduce the number to 625,000 men for immediate service.

The war department originally planned to select 500,000 first but an additional 125,000 was needed for filling vacancies in the army and keep the training camps continually operating. Casualties from foreign service and sickness make a reserve necessary. Immediate drafting is favored rather than postponement for several weeks, thus giving the men warning to arrange their personal affairs.

The attorney general announced: "The committing magistrates will be asked to fix the bail as high as practicable in each case of arrest tomorrow. Higher bail will be asked in the cases of individuals who advise or aid others to evade the law or interfere with registration officers than in the case of individuals merely failing to register."
